DETAILED ACTION

1. Receipt is acknowledged of the Supplemental Amendment filed on August 7, 2006. Claims 1-37 are cancelled, and claims 38, 39, 41, 43 and 44 are pending in the application.

Allowable Subject Matter

1. Claims 38, 39, 41, 43 and 44 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to claim 38, Applicant's arguments, in paragraphs 2-4 of the REMARKS on page 4, have been fully considered and are persuasive. The prior art does not teach, suggest or render obvious the claimed assembly in combination as claimed including:

- A monitoring device comprising an antenna adapted for remote wireless interrogation of the monitoring structure via radiofrequency excitation of the radiofrequency resonant circuit; and
- A crack propagating from the edge of the heat shield toward the center of the heat shield exceeding the critical length will cause a crack in the electrical conductor, thereby changing a radiofrequency resonance of the radiofrequency resonant circuit that is remotely detectable by the monitoring device for identifying the heat shield as defective.

With respect to claims 39 and 41, these claims are allowed at least by virtue of their dependency from the base claim.

Art Unit: 2858

With respect to claim 43, Applicant's arguments, in paragraphs 2-4 of the REMARKS on page 4, have been fully considered and are persuasive. The prior art does not teach, suggest or render obvious the claimed assembly in combination as claimed including:

- A monitoring device comprising an antenna adapted for remotely conducting the radiofrequency interrogation of the resonant circuit without a need for physical access to the component surface; and
- A crack propagating across the surface of the component will cause a break in the electrical conductor, thereby changing a resonance of the radiofrequency resonant circuit response to the radiofrequency interrogation that is detectable by the monitoring device for identifying the heat shield as defective.

With respect to claim 44, this claim is allowed at least by virtue of its dependency from the base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
